Resignations of Rodolfo Reyes and David de la Fuente, Cabinet members, are declined by Huerta.

Mexico City, Mex., April 26.—An agreement has been reached between President Huerta and his cabinet to make fresh efforts to have a general election called. It is believed that Congress can be induced not to oppose these efforts.

The dissensions between the partisans of Gen. Felix Diaz and President Huerta have ameliorated to avert, for a time at least, a ministerial crisis.

Army officers here say that the officers in command at Naco, Ariz., have been following precedent in holding the federal soldiers from Naco, Sonora, who surrendered at the close of the Naco fight. The prisoners who are being held there and fed by the United States government, are being disposed of as rapidly as possible, the officer says, and by tonight all of the government charges will have been disposed of by the army officers at Naco.

The wounded were sent to El Paso as soon as possible, a special train carried the soldiers, and the state troop deserters were sent back across the line and their wounded sent to the county hospital, where they are being cared for at the expense of the state of Sonora. The officer says that during the time the federalists were being held as prisoners they ate at least 12500 worth of good United States grub for which the United States stands to lose. There were 200 Tagals being held for 20 days, 250 federalists for 15 days and enough women and children to make a total of 600 charges on the United States army.
